## Professional Summary

Dynamic and versatile Full Stack Engineer with over 15 years of experience in developing and maintaining robust web applications. Adept in both frontend and backend technologies, I have a proven track record of leading teams to deliver high-quality, scalable solutions that enhance user experience and operational efficiency. My expertise spans a wide array of industries, including eCommerce, marketing, and government contracts. My ability to adapt and thrive in fast-paced, remote environments has empowered startups and small companies to achieve their digital transformation goals successfully.

Authorized to work in the US for any employer

## Skills

- Frontend: JavaScript, HTML, CSS, React, Vue.js, Typescript
- Backend: PHP (Laravel, Laminas, Zend), Python, MySQL, DynamoDB, Magento
- DevOps: AWS (Lambda, S3, API Gateway, CloudFront), Docker, CI/CD
- Tools & Testing: Jest, Playwright, ESLint, SonarQube, Twilio, SendGrid, RabbitMQ
- Leadership: Team Lead, Technical Architect, Remote Coordination

## EXPERIENCE

### SENIOR FULL STACK ENGINEER

**Makpar Corp (US SBA Contract) - Remote | October 2023 to October 2024**

- Led development of a customer-facing portal using React, AWS, and Python, improving operational workflows.
- Architected a serverless backend with API Gateway, Lambda, and DynamoDB.
- Championed CI/CD and testing pipelines (Jest, Playwright, SonarQube) to ensure code quality.

### SENIOR FULL STACK ENGINEER

## **GSATi - Remote | March 2022 to September 2023**

- Developed a plugin for Commerce7, enhancing client eCommerce platforms.
- Maintained legacy PHP (Laminas) systems and integrated AWS serverless services.
- Handled support tickets and improved client satisfaction through prompt issue resolution.

## **SENIOR FULL STACK ENGINEER**

### **Moxxi Marketing - Remote | January 2021 to March 2022**

- Built an inventory management tool integrating with various eCommerce systems.
- Rebuilt Laravel site with custom two-way communication with Magento e-commerce site.
- Deployed AWS-hosted infrastructure for scalable operations.

## **SENIOR FULL STACK ENGINEER**

### **Filter Easy - Remote | August 2020 to February 2021**

- Modernized eCommerce platform using Laravel and Vue.js SPA.
- Implemented complex eCommerce functionalities, including white labeling, coupon management, and discount systems for specific product purchases, enhancing customer engagement and sales opportunities.

## **SENIOR FULL STACK ENGINEER**

### **iRemedy - Remote | October 2019 to July 2020**

- Refactored CRM from FuelPHP to Laravel, boosting maintainability.
- Built a Python web scraper and managed Magento storefronts.

## **SENIOR FULL STACK ENGINEER**

### **Ronati - Remote | March 2019 to October 2019**

- Created a Laravel inventory sync tool for antique marketplace vendors.
- Built a Magento eCommerce platform and Docker-based CI/CD pipeline.

## **FULL STACK ENGINEER**

### **Calltext - Remote | December 2016 to November 2018**

- Built a custom CRM integrating Twilio and SendGrid communications.
- Led a remote development team and unified customer interactions.

# **FULL STACK ENGINEER**

**ChipMonk Technology - Remote | August 2016 to December 2016**

- Developed product search tools and internal dev tools using Laravel and Redis.
- Delivered a web store with optimized UX/UI and AWS hosting.

## **CTO**

**Red Pocket Mobile - Remote | April 2009 to January 2015**

- Grew from engineer to CTO, managing a 5-person dev team.
- Migrated CRM to a custom AWS solution and built Magento-based storefronts.
- Oversaw all technical infrastructure and automation pipelines.

## **EDUCATION & MILITARY**

Bachelor's Degree in Computer Science - The University of Phoenix | 1995 - 2005

U.S. Army - Satellite Communications Operator (Top Secret Clearance) | 1993 - 1999
